

Section 8

Mechanics for a Crew of Three Umpires

Mechanics for Three Umpires

8.1 Basic Principles:

1. Box 'em in. Having the third umpire often allows umpires the luxury of having one umpire in front of a runner and one umpire behind of a runner — but not always!
2. Communication is crucial. You have to know where your partners are — and what they're doing — in order to function as a unit.
3. Infield umpires may go out. In some situations, an umpire positioned in the middle of the diamond may cross the basepaths and head into the outfield for better coverage.
4. Studying three-umpire mechanics will help you understand four umpire mechanics. If you're going to work the four-umpire system (say, come tournament time), you better have the three-umpire system down pat!

8.2 Balk Concentration

There are some balks that are more obvious from some positions.

A. PU should concentrate on:

1. Left-handed pitchers stepping to the plate
2. Left-handed pitchers coming to a complete stop
3. Right-handed pitchers coming to a complete stop
4. Right-handed pitchers stepping to the plate on the third-to-first move
5. Right-handed pitchers gaining ground on the jump turn
6. Right-handed pitchers closing their front shoulder before the jump turn

B. U1 should concentrate on:

1. Left-handed pitcher's step, or body movement, to the plate
2. Left-handed pitchers coming to a complete stop
3. Left-handed pitchers breaking the back edge of the pitcher's rubber
4. Right-handed pitchers breaking their front knee before the jump turn

- C. U3 should concentrate on:
1. Right-handed pitchers coming to a complete stop
 2. Right-handed pitchers stepping to the plate on the third-to-first move
 3. Right-handed pitchers breaking the back edge of the pitcher's rubber
 4. Right-handed pitchers stepping to the plate

8.3 Basic Outfield Coverage

- A. Do not go out automatically from any position on fly balls in your coverage area.
- B. Pause, read and react. Then go hard and get a good angle. Be stopped when the play occurs.
- C. Four conditions that require an umpire to go to the outfield from the "A" and "D" positions:
1. The outfielder turns and begins to run toward the outfield fence (possible home run).
 2. Multiple players converging on a fly ball.
 3. A catch being made below the waist.
 4. Outfielder moving toward the foul line and possible fair/foul decision.
- D. When a base umpire goes out from any position, the crew will revert back to the two-umpire system in most cases.
- E. In the three-umpire system, it is acceptable for umpires positioned within the infield to cross the basepath and go to the outfield for fly ball coverage. Some basic principles apply:
1. Umpires stationed within the infield must communicate (signal and verbal) with their partners before every situation that might call for them to leave the infield on a batted ball.
 2. Umpires should only leave the infield on batted balls in their coverage area that are hit deep into the outfield or when outfielders are moving in and a catch is in doubt.
 3. Umpires should not leave the infield on line drives or other situations when partners would not have an opportunity to assume their coverage.
- F. If in doubt, go out on fly balls in your coverage area.
1. If you are going out, go out hard.
 2. Leave no doubt in your partners' minds about whether or not you are going out.

3. Signal your partners by raising your arm if you are going out.
4. If you are not going out, hold your arm out to your partners with your palm facing them.
5. If you do not go out, you still maintain responsibility for the catch.
6. Once you go out, do not return until the play is complete.

8.4 Overthrows

Nobody on base

All overthrows will be taken by the plate umpire with the exception of when the crew has rotated and that responsibility will revert to U1 who has rotated to the plate.

Runner on first base

Plate umpire will have responsibility for overthrows with the exception of when the crew has rotated and U1 has rotated to the plate. U1 will then have that overthrow. In instances when the crew reverts to two umpires, the plate umpire has all overthrows.

Runners on first and second

Plate umpire will take all overthrows with the exception of when there is a tag-up rotation and U1 has rotated to the plate. U1 will then assume that responsibility. When the crew reverts to a two-man system and the plate umpire has a tag play at third base, that umpire will take that play at third, the overthrow and possible play at the plate from the inside.

Runners on first and third, second and third, third base only or bases loaded

Plate umpire has all overthrow responsibilities.

8.5.1 NO RUNNERS ON

Initial Positions and Outfield Coverage

Action on the field: No action

Umpire responsibilities:

PU: Has no outfield responsibility with no runners on base.

U3: Starts in the "D" position. U3 has the center fielder moving toward left field, when the center fielder turns to his right and goes straight back and all balls to the left fielder.

8.5.2 NO RUNNERS ON

Infield Catch Coverage

Action on the field: No action

Umpire responsibilities:

PU has catches:

1. By the pitcher moving in, left or right.
2. By the first and third baseman moving toward the plate or toward the middle of the infield.

U1 has catches:

1. By the second baseman moving in, out or toward first base.
2. By the shortstop moving toward second base.

Point of Emphasis

It is important for U3, as soon as it's clear it's a base hit, to immediately slide towards third base. This will allow U1 to take the batter-runner to second base and eliminate any confusion on who is taking the play at second base. If a play develops at third on the batter-runner, it is recommended that U3 slide to the outside of the diamond and take the play at third on the batter-runner in foul territory.
